

## **My Dream World**

- **Design brief:** Is it your dream to walk across a tightrope that stretches between two buildings? Or to see giant animals take over a city? Or to be on stage with Justing Bieber? Nothing is beyond your reach with a little help from photoshop.
- Create an image of yourself in a fantasy world. Combine a minimum of 9 images and a self portrait to transport and transform yourself!

### **Criteria:**

- Use photoshop to combine a picture of yourself into your dream environment
- Create a strong layout: rule of thirds, focal point
- When finished hand in TWO files. 1 save file as JPG and 2 save as a PSD. The JPG is a smaller file, so we can add it to our online gallery. The PSD allows me to see your lovely layers.
- Add a border
- Save all files like this (or else): LASTNAME\_FIRSTNAME\_DREAMWORLD. (why? Ask Ashley)

### **Skills:**

- Pen, lasso, magic wand, select tool to cut out images
- Transform tool to scale and move elements
- Image adjustments to change appearance
- Naming your layers
- Advanced: layer masks, layer opacity
